OFÍCIO 16/2026

ASSUNTO: Resposta ao Ofício 07/2026

ORIGEM: Gabinete

Gonçalves, 23 de março de 2026.

A sua Excelência a Senhora

MARIA ELIZA VIEIRA CARLOS DE ALMEIDA

Presidenta da Câmara Municipal de Gonçalves/MG

Com cordiais cumprimentos, em atenção ao requerimento supracitado, a administração pública municipal, através deste, apresentará as informações requeridas quanto a frota municipal, ressaltando, desde o início que, com aprovação, por esta egrégia casa, do cargo de diretor de frotas e trânsito, a implementação de mecanismos de controle mais sofisticados e atuais, que confiram maior efetividade e economicidade aos cofres públicos, terá maior eficiência, ante as atribuições próprias deste cargo.

1) Descrição dos mecanismos de rastreamento e controle da frota municipal

Atualmente, a frota municipal de veículos automotores, máquinas e equipamentos pesados, sejam próprios ou locados, não dispõe de sistema de geolocalização ativo, como GPS ou tecnologia equivalente. Todavia, informa-se que a Administração Municipal, já iniciou a elaboração de Estudo Técnico Preliminar visando à futura implantação de sistema de rastreamento e monitoramento eletrônico da frota.

Ressalta-se que, no mercado atual, existem diversas soluções tecnológicas disponíveis, com variações significativas quanto a funcionalidades, eficiência operacional e custos. O estudo em andamento tem como objetivo identificar a solução mais adequada à realidade do Município, considerando critérios de economicidade, eficiência e compatibilidade com as necessidades operacionais da frota municipal.

Cumpre destacar, que a eventual implantação imediata de sistema dessa natureza, sem a estrutura administrativa adequada, pode comprometer sua efetividade, tendo em vista que, no momento, o Município não dispõe de um departamento estruturado e específico de gestão de frotas para realizar o acompanhamento contínuo, análise de dados e controle operacional que a

Assinado por 1 pessoa: MÁRCIO DONIZETTI DE OLIVEIRA
Para verificar a validade das assinaturas, acesse https://goncalves.1doc.com.br/verificacao/9183-7971-5DF1-F888 e informe o código 9183-7971-5DF1-F888

ferramenta exige. Assim, a Administração busca, de forma responsável, alinhar a futura contratação não apenas à aquisição da tecnologia, mas também à organização dos fluxos internos necessários à sua plena utilização.

A futura contratação para implantação do referido sistema já se encontra alinhada ao planejamento administrativo previsto no Plano Anual de Contratações (PAC) para o exercício de 2026.

Esclarece-se, que, no momento, não há relatórios técnicos de funcionamento de sistema de rastreamento, uma vez que este ainda não foi implantado.

2) Detalhamento do sistema de controle de combustíveis

Atualmente, os abastecimentos da frota municipal são realizados diretamente em postos de combustíveis sediados no Município, sendo gasolina fornecida por posto credenciado da bandeira BR e óleo diesel por posto credenciado da bandeira Shell, ambos contratados mediante regular processo licitatório, em conformidade com a legislação vigente.

O controle dos abastecimentos é realizado por meio de requisição física de abastecimento, que permanece no veículo. No momento do abastecimento, o estabelecimento emite comprovante contendo as informações pertinentes, tais como identificação do veículo, hodômetro, litragem e valor abastecido, sendo este documento conferido e assinado pelo condutor ou operador responsável, atestando a veracidade das informações registradas.

Posteriormente, quando do envio da nota fiscal à Prefeitura, cada abastecimento é lançado individualmente no sistema informatizado da ADPM, permitindo o registro detalhado das operações. Ressalta-se que tais informações são devidamente encaminhadas ao Tribunal de Contas, atendendo às exigências de transparência e controle externo.

Importante destacar que, nos casos excepcionais em que o abastecimento ocorre fora do Município, especialmente em viagens de longa distância, o procedimento é realizado diretamente pelo motorista, mediante pagamento próprio, sendo posteriormente reembolsado pela Administração, conforme comprovação documental. Nessas situações, tais abastecimentos não são

Assinado por 1 pessoa: MÁRCIO DONIZETTI DE OLIVEIRA
Para verificar a validade das assinaturas, acesse https://goncalves.1doc.com.br/verificacao/9183-7971-5DF1-F888 e informe o código 9183-7971-5DF1-F888

lançados no sistema ADPM, em razão da impossibilidade operacional de integração com o controle padrão adotado, eventuais divergências nos relatórios de consumo médio por veículo podem ocorrer, em razão da ausência desses lançamentos específicos na base de dados principal.

Ressalta-se, contudo, que como medida de controle, todos os veículos, antes de realizarem viagens de longa distância, são previamente abastecidos nos postos licitados do Município, buscando reduzir a necessidade de abastecimentos externos e manter maior confiabilidade nos registros.

Por meio do sistema utilizado, é possível a emissão de relatórios gerenciais, possibilitando a análise do consumo de combustível por veículo ou equipamento, bem como a comparação entre abastecimento realizado e consumo médio estimado.

Cumpre esclarecer, entretanto, que a inexistência, até o momento, de um departamento estruturado e específico para gestão de frotas dificulta a realização de acompanhamento sistemático e mensal mais aprofundado desses dados. Ainda assim, destaca-se que, em razão da obrigatoriedade de envio das informações ao Tribunal de Contas, eventuais inconsistências relevantes tenderiam a ser identificadas no âmbito do controle externo, o que contribui como mecanismo adicional de fiscalização.

Por fim, informa-se que os procedimentos atualmente adotados se encontram baseados em rotinas administrativas internas, não havendo, até o momento, regulamento formal específico consolidado em manual próprio.

3) Informações sobre o controle de quem utiliza cada veículo ou máquina:

Concernente ao sistema de autorização e controle de uso dos veículos da frota municipal, informa-se que cada veículo possui diário de bordo individualizado, que é um instrumento formal e obrigatório de registro e acompanhamento de sua utilização cotidiana.

Referido diário de bordo permanece vinculado ao respectivo veículo e deve ser preenchido pelo condutor a cada deslocamento realizado, de forma contínua e fidedigna, contendo informações detalhadas que permitam o adequado controle administrativo. Dentre os dados

Assinado por 1 pessoa: MÁRCIO DONIZETTI DE OLIVEIRA
Para verificar a validade das assinaturas, acesse https://goncalves.1doc.com.br/verificacao/9183-7971-5DF1-F888 e informe o código 9183-7971-5DF1-F888

obrigatoriamente registrados, destacam-se: data e horário de saída, identificação do motorista, hodômetro inicial, destino da viagem, finalidade do deslocamento, bem como data e horário de retorno, hodômetro final e assinatura do condutor responsável.

A adoção desse procedimento visa assegurar maior transparência, rastreabilidade e controle sobre a utilização dos veículos públicos, possibilitando a verificação dos trajetos realizados, da quilometragem percorrida e da compatibilidade entre o uso do veículo e as atividades desempenhadas pela Administração Pública.

Além do controle físico por meio dos diários de bordo, informa-se que os dados registrados são periodicamente consolidados e inseridos no sistema informatizado da ADPM, permitindo a organização das informações em ambiente digital, a geração de relatórios gerenciais e o cruzamento de dados com outros controles administrativos, como abastecimento e manutenção.

Ressalta-se, ainda, que os documentos físicos originais são devidamente arquivados pela Administração, permanecendo disponíveis para consulta, conferência e eventual auditoria pelos órgãos de controle interno e externo, garantindo, assim, a integridade das informações e a conformidade com os princípios da legalidade, eficiência e transparência.

Por fim, cumpre destacar que, embora o procedimento atualmente adotado se mostre funcional para o controle básico da utilização da frota, a inexistência de um setor estruturado e específico de gestão de frotas ainda limita a realização de análises mais aprofundadas e em tempo real, situação que já se encontra em avaliação pela Administração, com vistas ao seu aperfeiçoamento.

No Departamento de Saúde, ante as peculiaridades da área, há uma organização de utilização dos veículos com definição de veículo e motorista responsável, podendo ocorrer substituições em casos de folgas, férias, licenças ou outras necessidades do serviço.

Atualmente, a distribuição é realizada da seguinte forma:

1. Veículos e respectivos motoristas:

Assinado por 1 pessoa: MÁRCIO DONIZETTI DE OLIVEIRA
Para verificar a validade das assinaturas, acesse https://goncalves.1doc.com.br/verificacao/9183-7971-5DF1-F888 e informe o código 9183-7971-5DF1-F888

- Spin D47 – Motorista: Anderson José da Silva.
- Spin D54 – Motorista: Carlos Gomes Donizeti Pinto.
- Sprinter Branca – Motorista: Gabriel Augusto Pinto e Silva.
- Sprinter Prata – Motorista: Reinaldo João Ribeiro.
- Micro-ônibus – Motorista: José Roberto da Costa.
- Gol – Motorista: Milton Inacio da Rosa.
- Polo – Motorista: Paulo César Costa.
- Sandero Branco – Motorista: Almir Aparecido da Silva.

2. Veículos destinados a setores específicos:

- Fox – uso pela Diretora do Depto. Municipal de Saúde e servidores administrativos e técnicos para reuniões e capacitações.
- Saveiro – utilização pelo setor de Epidemiologia e Controle de Doenças – Vacinação.
- Sandero Prata – utilização da Vigilância Sanitária (VISA).
- Sandero Prata – utilizado para visitas domiciliares de profissionais da equipe eMulti (assistente social, fisioterapeuta e demais profissionais), bem como para transporte domiciliar de pacientes em tratamento de hemodiálise.
- 02 veículos Gol ESF – utilizados para visitas domiciliares e atendimentos médicos nas Unidades Básicas de Saúde e centros comunitários.
- Ambulâncias: A ambulância destinada ao plantão é utilizada prioritariamente para atendimentos de urgência e emergência, sempre que solicitada, bem como para transferências de pacientes quando necessário. Já as ambulâncias que não estão no plantão, estas podem ser utilizadas para transporte de pacientes em Tratamento Fora do Domicílio (TFD) em situações específicas, como: pacientes acamados; pacientes em uso de oxigênio; ou em outras condições clínicas que necessitem obrigatoriamente de transporte em ambulância.

Informamos ainda que as escalas de viagens referentes ao Tratamento Fora do Domicílio (TFD) são organizadas diariamente, contendo as mesmas informações já detalhadas acima, visto que os mecanismos de controle são os mesmos em todos os departamentos.

Assinado por 1 pessoa: MÁRCIO DONIZETTI DE OLIVEIRA
Para verificar a validade das assinaturas, acesse https://goncalves.1doc.com.br/verificacao/9183-7971-5DF1-F888 e informe o código 9183-7971-5DF1-F888

Existe também uma escala complementar, na qual constam os nomes dos pacientes transportados, local de embarque/espera do transporte, local de realização da consulta, exame ou procedimento na cidade de destino.

As viagens de TFD destinam-se a consultas médicas, exames, procedimentos, internações, altas hospitalares e atendimentos em instituições como APAE, conforme necessidade dos pacientes atendidos pelo sistema de referência de saúde.

No que se refere aos veículos utilizados pelas Equipes de Saúde da Família (ESF), cada equipe possui um cronograma mensal de atividades, o que possibilita a organização e previsão de uso dos veículos destinados às visitas domiciliares e atendimentos externos.

Já os veículos Saveiro, Fox e Sandero utilizados pela Vigilância Sanitária, são empregados conforme a demanda e necessidade dos respectivos setores.

Por fim, informamos que todos os veículos possuem planilha de controle de utilização, na qual são registrados obrigatoriamente: data de saída e chegada, horário de saída e chegada, hodômetro de saída e chegada, destino da viagem, quantidade de passageiros e assinatura do motorista. Também é realizado o controle de abastecimento, contendo: Data, horário, hodômetro, quantidade de litros abastecidos e motorista responsável.

4) Forma de controle da localização e trajeto dos veículos e maquinários

Conforme informações acima citadas, o controle da localização e dos trajetos realizados pelos veículos e maquinários da frota municipal é efetuado, atualmente, por meio de registros manuais constantes nos diários de bordo individuais de cada veículo.

Nestes registros, são informadas, de forma obrigatória, data e horário de saída e retorno, identificação do condutor, hodômetro inicial e final, bem como o destino e a finalidade da utilização, permitindo o acompanhamento da quilometragem percorrida e da rotina de uso dos veículos.

Assinado por 1 pessoa: MÁRCIO DONIZETTI DE OLIVEIRA
Para verificar a validade das assinaturas, acesse https://goncalves.1doc.com.br/verificacao/9183-7971-5DF1-F888 e informe o código 9183-7971-5DF1-F888

Cumpre esclarecer que, nos casos em que os veículos são utilizados exclusivamente dentro do território do Município, especialmente em atividades operacionais contínuas — como serviços de manutenção, apoio logístico, transporte interno e demais demandas rotineiras —, nem sempre é possível a especificação detalhada de todos os pontos percorridos ao longo do dia. Nestas situações, os registros são realizados de forma consolidada, sendo frequentemente indicado como destino o termo “Bairros diversos”, tendo em vista que o veículo percorre múltiplas localidades ao longo da jornada.

Ressalta-se, ainda, que o preenchimento do diário de bordo é realizado de forma contínua ao longo do dia, porém, o encerramento do registro da utilização do veículo ocorre, em regra, apenas ao final da jornada, com o lançamento das informações completas de retorno, incluindo horário e hodômetro final. Assim, paradas intermediárias, como intervalos para refeição ou pausas operacionais, não ensejam o encerramento de um novo registro, sendo consideradas parte de um mesmo deslocamento. Excepcionalmente, havendo troca de motorista durante o período de utilização, é realizado o encerramento do registro anterior e a abertura de novo apontamento, garantindo a correta identificação dos condutores responsáveis.

No que se refere ao controle de rotas, horários e paradas, informa-se que tais dados são apurados com base nas informações lançadas nos diários de bordo, não havendo sistema informatizado ou automatizado de rastreamento que permita a geração de relatórios detalhados de rotas em tempo real.

Por fim, destaca-se que o modelo atualmente adotado atende às necessidades básicas de controle administrativo, porém, encontra-se em processo de avaliação para aprimoramento, especialmente no que diz respeito à futura implantação de sistemas tecnológicos que possibilitem maior precisão, confiabilidade e detalhamento das informações relativas à localização e trajeto da frota municipal.

No que se refere à existência de relatórios de rotas percorridas, horários de saída e retorno e paradas realizadas, informa-se que, atualmente, não há sistema automatizado que gere relatórios detalhados de rotas ou monitoramento em tempo real, em razão da inexistência de sistema de rastreamento por geolocalização implantado na frota municipal.

Assinado por 1 pessoa: MÁRCIO DONIZETTI DE OLIVEIRA
Para verificar a validade das assinaturas, acesse https://goncalves.1doc.com.br/verificacao/9183-7971-5DF1-F888 e informe o código 9183-7971-5DF1-F888

Todavia, destaca-se que as informações relativas aos horários de saída e retorno, bem como à identificação do condutor e à quilometragem percorrida, são devidamente registradas nos diários de bordo de cada veículo, conforme já mencionado, possibilitando o acompanhamento administrativo da utilização.

Quanto às paradas realizadas ao longo dos deslocamentos, estas não são registradas de forma individualizada, uma vez que o controle atual considera o período integral de utilização do veículo como um único registro diário, sendo discriminados, de forma geral, apenas o destino e a finalidade da atividade desempenhada.

Dessa forma, os relatórios atualmente disponíveis são de natureza consolidada, baseados nos dados inseridos manualmente e posteriormente lançados no sistema da ADPM, não havendo, até o momento, relatórios detalhados de rotas com indicação precisa de trajetos e pontos de parada.

Ressalta-se, por fim, que a Administração Municipal já reconhece a necessidade de evolução desse modelo de controle, encontrando-se em fase de estudos para futura implementação de soluções tecnológicas que possibilitem maior nível de detalhamento e confiabilidade das informações.

5) Forma de controle da finalidade de uso dos veículos e maquinários

Conforme já mencionado nos itens anteriores, não há, atualmente, a formalização padronizada e individualizada da finalidade de cada utilização dos veículos e maquinários da frota municipal por meio de ordens de serviço específicas ou requisições previamente estruturadas, sendo o controle realizado por mecanismos administrativos complementares.

A finalidade de uso dos veículos e equipamentos é registrada de forma indireta e consolidada, por meio dos diários de bordo físicos e dos lançamentos realizados no sistema informatizado da ADPM, os quais permitem a organização e consolidação das informações referentes à circulação da frota.

Assinado por 1 pessoa: MÁRCIO DONIZETTI DE OLIVEIRA
Para verificar a validade das assinaturas, acesse https://goncalves.1doc.com.br/verificacao/9183-7971-5DF1-F888 e informe o código 9183-7971-5DF1-F888

Nesse contexto, a Administração Municipal dispõe de relatórios gerenciais de circulação de veículos, extraídos do sistema, os quais contemplam dados como identificação do veículo, datas de utilização, localidade/destino, tipo de operação (em regra classificada como "atendimento"), hodômetro inicial e final, bem como a quilometragem percorrida em cada registro. Tais relatórios, a exemplo do documento ora anexado, evidenciam a rotina operacional da frota ao longo dos períodos analisados, permitindo verificar a frequência de uso e as regiões atendidas.

Verifica-se, contudo, que as informações relativas à finalidade são apresentadas de forma sintética, não contemplando a descrição pormenorizada de cada atividade executada. Em grande parte dos registros, especialmente nas atividades realizadas dentro do Município, constam indicações genéricas como "Atendimento" e "Bairros diversos", o que se justifica pelo fato de que os veículos e maquinários, em sua rotina operacional, atendem múltiplas demandas ao longo de um mesmo dia, muitas vezes de natureza contínua e dinâmica, como serviços de manutenção, apoio aos departamentos, transporte institucional e execução de atividades em diversas localidades.

Importante ressaltar que, embora não haja a discriminação detalhada por serviço individual, os registros existentes permitem correlacionar a utilização da frota às atividades típicas dos departamentos demandantes, considerando o contexto operacional e a natureza das ações desenvolvidas pela Administração Pública.

O modelo atualmente adotado decorre, em grande medida, da inexistência de um departamento estruturado e específico de gestão de frotas, o que limita a implementação de controles mais avançados, tais como a padronização de ordens de serviço, o detalhamento individualizado de atividades por deslocamento e o acompanhamento analítico em tempo real.

Não obstante tais limitações, os mecanismos atualmente utilizados — diários de bordo, lançamentos sistematizados e relatórios gerenciais — permitem o controle da circulação, da quilometragem percorrida, da frequência de utilização e das localidades atendidas, constituindo instrumentos suficientes para fins de acompanhamento administrativo e prestação de contas, inclusive junto aos órgãos de controle externo.

Assinado por 1 pessoa: MÁRCIO DONIZETTI DE OLIVEIRA
Para verificar a validade das assinaturas, acesse https://goncalves.1doc.com.br/verificacao/9183-7971-5DF1-F888 e informe o código 9183-7971-5DF1-F888

Por fim, ressalta-se que a Administração Municipal reconhece a necessidade de aperfeiçoamento dos instrumentos de controle da frota, encontrando-se em fase de estudos e planejamento para implementação de medidas que visem maior detalhamento das informações, padronização dos procedimentos, integração de sistemas e eventual estruturação de setor específico, de modo a alinhar a gestão da frota às melhores práticas de governança pública, eficiência administrativa e transparência.

Segue em anexo, fazendo parte integrante deste todos os relatórios mencionados e registro de ponto dos servidores.

Atenciosamente,

Márcio Donizetti de Oliveira
Prefeito Municipal
